Selecting an Output Style:

An Output Style denotes how the reference is formatted in your Reference List.

Output styles can be selected in an EndNote Library by using the Styles drop down box.

If the style that you are wanting is not listed go to:
- Select Another Style
- Browse for the style you are wanting
- Highlight the chosen style
- Click Choose

More styles are available from [www.endnote.com/support/enstyles.asp](http://www.endnote.com/support/enstyles.asp)

You can get to this page in your Endnote Library this way:
- Edit> Output Styles
- Open Style Manager
- Get More on the Web
