The "LIGHT-RUNNING YOST," so termed because of the SMOOTHNESS, QUIETNESS and SWIFTNESS of its working, is the latest model of the well-known YOST, famous for the clearness and neatness of its writing, consequent upon its types communicating direct with the paper. Many valuable improvements have been effected, and there are some features entirely new to writing machines.

MUTUAL LIFE ASSURANCE WITH MODERATE PREMIUMS.

The Premiums do not as a rule exceed the non-profit rates of other Offices; nevertheless they secure right to participation in the Whole Surplus on a system peculiarly favourable to good lives.

The Surplus at last Septennial Investigation (31st December, 1901) was £1,581,000.

Over Sixty-six per cent. of the Policies which became claims by death during 1902 were entitled to Bonuses which, notwithstanding the lowness of the Premiums, were, on the average, equal to an addition of considerably over 50 per cent. to the Original Assurances.

The Accumulated Funds exceed £12,500,000.
